

“Colour! What a deep  
and mysterious language,  
the language of dreams.”

Paul Gauguin

“Colour is the least expensive  
thing to put in a house.”

2020 is the year to have fun with colour. The rise of coloured ceramics, brassware and unique tiles has meant colour is now easily achievable, whether subtly or achieved by going all out.

At BC Designs, we have maximised the way retailers can achieve this with our painted boat baths and the launch of Colourkast; a collection of eight colourways which will be available across all its Cian<sup>®</sup> baths and basins.

More subtle undertones can be achieved using our brassware in brushed metals or copper and tin boat baths.

The possibilities really are endless.

Different shades of colour conjure various emotions so when debating on which hues to choose for your bathroom, it's key to think about the kind of atmosphere you want to create and which colours will help you achieve this.

*passion, excitement, energy, power*

*balance, growth, nature, relaxation, support, comfort*

*tranquillity, intelligence, spirit, calm, peace*

*energy, joy, youth, optimism, warmth, richness*

*creativity, wealth, fantasy, noble, luxury*

*love, calm, sensitivity, nurture*

*glamour, high-tech, grace, strength, sophistication*

*power, sleek, drama, mystery*

**“Colour blocking is a simple way to introduce colour to a small space, without it being overwhelming. Pair contrasting shades for an interesting combination and a striking finish that really frames the features of a space.”**
