they make the design.”*

Charles Eames

The perfect combination for a calming and tranquil bathroom

Pink and white are a classic pairing, with the blush hues and tones making white sanitaryware and furniture pop, while keeping things fresh and cool. Accessorise with brushed brass fittings and natural warm textures such as rattan and wood to create the ultimate tranquil space.

The 750mm cabinet in Nimbus White is juxtaposed against Valentine Marble Honed tiles by Artisan of Devides and features the white marble basin. Made from real stone, each marble basin will be slightly different to the next, making it unique to the owner.

750mm cabinet in Nimbus White, with white marble basin and Victrion Crosshead 3 Hole Basin Mixer in brushed gold.

Our Victrion furniture range is a capsule collection of four classic basin units in four beautiful shades - Nimbus White, Forest Green, Earl's Grey and Dark Lead. We have chosen natural stone worktops for a premium and tactile finish and each piece is unique and full of character.

The go to colour for 2022 in bathroom design will be green

Green is a brilliant way to refresh a bathroom without overpowering, evoking a sense of nature, relaxation, and comfort.

Working across both modern and traditional bathrooms, different shades of green will alter the mood of the room, from calm and relaxed to vibrant and energised. It is also a colour that works exceptionally well when different shades are used together, creating an urban oasis in your own home.

The 1000mm cabinet in Forest Green, with the black marble basin, is the largest in the collection. With its angled lines, it plays homage to the art deco period. The green cabinet works in harmony with the pops of colour from the brushed copper brassware and handles.

Cabinet handles can be matched to any of the 8 metallic finishes – chrome, brushed chrome, gold, brushed gold, copper, brushed copper, nickel and brushed nickel - available across the Victrion Brassware collection.

1000mm cabinet in Forest Green, with black marble basin and Victrion Lever 3 Hole Basin Mixer in brushed copper.

600mm cabinet in Dark Lead with black marble basin and Victrion Crosshead Mono Basin Mixer in brushed nickel.

For those with smaller bathrooms the 600mm cabinet is the perfect way to add oodles of style

The Dark Lead colour option works with rich, warm shades for an indulgent and moody feel.

If you have a larger space to play with, choosing to double up is a great way of adding luxury, with a his and hers sink tailored to what they need in their bathroom, and without getting in each other's way first thing in a morning

The Victrion furniture collection starts at £1065.60 for the 600mm unit, with the marble top costing an additional £860.40.

Luxuriously deep units give ample storage for all your favourite toiletries and guest towels. Each unit features soft close doors which limits the daily wear and tear and helps to keep noise to a minimum.

Victrion 640mm basin on the traditional basin stand in gold with the Victrion Crosshead 3 Hole Basin Mixer in gold.

BC DESIGNS IS ALSO LAUNCHING
A NEW CERAMICS COLLECTION,
FEATURING A DISTINGUISHED SELECTION
